

terraform data source

muy incompleto

definición

```
data "aws_ami" "example" {  
  most_recent = true  
  
  owners = ["self"]  
  tags = {  
    Name     = "app-server"  
    Tested  = "true"  
  }  
}
```

```
resource "aws_instance" "web" {  
  ami           = data.aws_ami.web.id  
  instance_type = "t1.micro"  
}
```
